

CCGC is Now Offering

# TELEHEALTH SERVICES

Virtual mental health and special education services for your family during these challenging times

If the COVID-19 crisis is limiting your child from receiving regular services or causing them anxiety, depression and anger, CCGC now offers all programs and services remotely to help support, guide, and treat their specific needs.

## NORTH STAR

Intensive Outpatient Program

- For children ages 5-12 who are struggling with behavioral emotional and social needs.
- Multidisciplinary team provides 1.5 hour therapeutic group sessions.
- Teaches ways to manage behaviors including coping skills, and more.

## OUTPATIENT COUNSELING

- Family-focused treatment for children up to age 18.
- Includes group, family, and individual counseling, as well as psychiatric services.
- Treatment is evidence-based, and backed by current research.

## IICAPS

Intensive In-Home Child and Adolescent Psychiatric Services

- Treatment includes family and individual counseling, as well as psychiatric services.
- Offers case coordination and case management.
- Suitable for families seeking a higher-level of care.

Also being offered remotely:

## CCGC SCHOOL

- Referrals for this program are accepted from a child's school district.
- Utilizes a multi-sensory approach, and offers occupational and speech therapy.
- Provides the support of a clinical team, and summer programming is also available.
